Education

Shri Guru Gobind Singhji Institute of Engineering and Technology, Nanded 2023 – 2027
Bachelor of Technology in Computer Science Engineering

Technical Skills

Programming Languages: Java, JavaScript, Python

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Developer Tools: Git, GitHub, VS Code, Postman

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, JWT Authentication, Role-Based Access Control (RBAC)

Work Experience

- **Web Development Intern – Solutions Touch** June 2026 – Present
  Official College Website | Company Team

  - Contributing to the development and maintenance of the official website of Shri Guru Gobind Singhji Institute of Engineering and Technology as part of the Solutions Touch development team.
  - Developing responsive web modules using React.js, Node.js, Express.js, and MongoDB while implementing new features and resolving application issues.
  - Building and testing REST APIs, collaborating through Git, GitHub, and Postman, and following industry-standard software development practices.

Key Projects

- **EduHive – Smart Collaborative Learning Platform** GitHub Repository
  React.js, Node.js, Express.js, MongoDB, AI Integration

  - Built a full-stack AI-powered collaborative learning platform for students and teachers using the MERN stack.
  - Implemented JWT-based authentication and Role-Based Access Control (Admin, Teacher, Student).
  - Integrated AI study assistance, responsive dashboards, and real-time collaboration features.
  - Designed scalable REST APIs and optimized MongoDB database operations for improved application performance.

- **TALK-ORBIT – Real-Time Chat Application** GitHub Repository
  React.js, Node.js, Express.js, MongoDB, Socket.IO

  - Developed a real-time chat application using Socket.IO with one-to-one and group messaging features.
  - Implemented secure user authentication and persistent chat history using MongoDB.
  - Built a responsive React interface with real-time message synchronization across users.
  - Designed modular REST APIs and event-driven backend architecture for efficient communication.

Achievements

- Solved 200+ Data Structures and Algorithms problems on LeetCode.
- Selected among the Top 10 teams in HackFusion 2.0 State-Level Hackathon.

Leadership Experience

- Team Member of the Official College Web Team, collaborating with developers to maintain and enhance institutional web applications.
- Served as Joint Coordinator of the college cultural fest “UTSAV”, coordinating event planning and team collaboration.
